

General

The AIR980 is an easy to use insulation retaining disc, designed to be used with fibre slab and rigid board insulation. With its unique “pinch to fit” design it reduces stresses put on the wall tie during installation which can often lead to bent or broken wall ties and also makes installation easier as the AIR980 can be installed with one hand. The AIR980 fits all standard wall ties from 2.5-5mm diameter, flat wall ties and box section up to 9mm. the AIR980 has a larger diameter, increasing the insulation area effectively supported. The pinch fit minimises bent or twisted wall ties.

Details

REF	AIR980	MANUFACTURING PROCESS	Injection moulded
BOX SIZE (MM)	355 X 265 X 195	MATERIAL	PPC - Polypropylene copolymer
PALLET SIZE (M)	1 x 1.2 x 2.25		
PACKING	Product per box = 250, Boxes per pallet = 100		
WEIGHT	Product = 5.5g, Box = 1.537kg, Pallet = 181.70kg	COLOUR	BLACK
